(54) Title: GLYCOSYLATED STEROID DERIVATIVES WITH ANTI-MIGRATORY ACTIVITY

(57) Abstract: The present invention relates to novel glycosylated steroid compounds having anti-migratory activity. The present invention also relates to a method for the preparation of said glycosylated steroid compounds. The invention further relates to a pharmaceutical composition comprising an effective amount of said glycosylated steroid compounds. Furthermore, the present invention concerns the use of said glycosylated steroid compounds as a medicament and in the preparation of a medicament for the treatment of diseases associated with cell migration, and even in particular in the treatment of cancer. The present invention also relates to the use of a glycosylated steroid compound or a pharmaceutical composition comprising said glycosylated steroid compound according to the invention in the treatment of diseases associated with cell migration, and even in particular in the treatment of cancer.
